# applique bollard

A family of bollards and applique characterized by the balance between sculptural form and lighting technology. The collection is very wide, with different lighting options. Besides lighting the surrounding environment, the light plays with the lamp-object by revealing and

enhancing the volumes. Blend, in all its varieties, is an aesthetically pleasing object also when switched-off, thanks to its design that interacts with daylight, creating shadows and visual softness. The applique is designed to allow a double emission with diffused optic.

BLEND applique  
single / double emission

IP65  
IK 05

3 mm Photo-etched  
methacrylate
